

By OkDoKeY

+ Section 1 - Hormones and Hormone Action

- + 1 - Principles of Endocrinology**
- + 2 - The Endocrine Patient**
- + 3 - Genetic Control of Peptide Hormone Formation**
- + 4 - Mechanism of Action of Hormones That Act on Nuclear Receptors**
- + 5 - Mechanism of Action of Hormones That Act at the Cell Surface**
- + 6 - Laboratory Techniques for Recognition of Endocrine Disorders**

+ Section 2 - Hypothalamus and Pituitary

- + 7 - Neuroendocrinology**
- + 8 - Anterior Pituitary**
- + 9 - Posterior Pituitary Gland**

+ Section 3 - Thyroid

- + 10 - Thyroid Physiology and Diagnostic Evaluation of Patients with Thyroid Disorders**
- + 11 - Thyrotoxicosis**
- + 12 - Hypothyroidism and Thyroiditis**
- + 13 - Nontoxic Goiter and Thyroid Neoplasia**

+ Section 4 - Adrenal Cortex and Endocrine Hypertension

- + 14 - The Adrenal Cortex**
- + 15 - Endocrine Hypertension**

+ Section 5 - Reproduction

- + 16 - The Physiology and Pathology of the Female Reproductive Axis**
- + 17 - Fertility Control: Current Approaches and Global Aspects**
- + 18 - Disorders of the Testes and the Male Reproductive Tract**
- + 19 - Sexual Dysfunction in Men and Women**

+ Section 6 - Endocrinology and the Life Span

- + 20 - Endocrine Changes in Pregnancy**
- + 21 - Endocrinology of Fetal Development**
- + 22 - Disorders of Sex Differentiation**
- + 23 - Normal and Aberrant Growth**
- + 24 - Puberty: Ontogeny, Neuroendocrinology, Physiology, and Disorders**
- + 25 - Endocrinology and Aging**

+ Section 7 - Mineral Metabolism

- + 26 - Hormones and Disorders of Mineral Metabolism**
- + 27 - Metabolic Bone Disease**
- + 28 - Kidney Stones**

+ Section 8 - Disorders of Carbohydrate and Lipid Metabolism

- + 29 - Type 2 Diabetes Mellitus**
- + 30 - Type 1 Diabetes Mellitus**
- + 31 - Complications of Diabetes Mellitus**
- + 32 - Glucose Homeostasis and Hypoglycemia**
- + 33 - Obesity**
- + 34 - Disorders of Lipid Metabolism**

+ Section 9 - Polyendocrine Disorders

- + 35 - Pathogenesis of Endocrine Tumors**
- + 36 - Multiple Endocrine Neoplasia**
- + 37 - The Immunoendocrinopathy Syndromes**

+ Section 10 - Paraendocrine and Neoplastic Syndromes

- + 38 - Gastrointestinal Hormones and Gut Endocrine Tumors**
- + 39 - Endocrine-Responsive Cancer**
- + 40 - Humoral Manifestations of Malignancy**
- + 41 - Carcinoid Tumors, Carcinoid Syndrome, and Related Disorders**

Appendix: Reference Values

Williams Textbook of Endocrinology

TENTH EDITION

P. Reed Larsen MD, FACP, FRCP

Professor of Medicine
Harvard Medical School
Chief, Division of Endocrinology, Diabetes and Hypertension
Brigham and Women's Hospital
Boston, Massachusetts

Henry M. Kronenberg MD

Professor of Medicine
Harvard Medical School
Chief, Endocrine Unit
Massachusetts General Hospital
Boston, Massachusetts

Shlomo Melmed MD

Senior Vice President, Academic Affairs
Cedars Sinai Research Institute
Professor of Medicine and Associate Dean
University of California, Los Angeles, School of Medicine
Los Angeles, California

Kenneth S. Polonsky MD

Adolphus Busch Professor and Chairman
Department of Medicine
Professor, Department of Cell Biology and Physiology
Washington University School of Medicine
St. Louis, Missouri

Notice

Medicine is an ever-changing field. Standard safety precautions must be followed, but as new research and clinical experience broaden our knowledge, changes in treatment and drug therapy may become necessary or appropriate. Readers are advised to check the most current product information provided by the manufacturer of each drug to be administered to verify the recommended dose, the method and duration of administration, and contraindications. It is the responsibility of the treating physician, relying on experience and knowledge of the patient, to determine dosages and the best treatment for each individual patient. Neither the publisher nor the editor assumes any liability for any injury and/or damage to persons or property arising from this publication.

Contributors

Eli Y. Adashi

Presidential Professor of Obstetrics and Gynecology
and John A. Dixon Professor and Chair,
Department of Obstetrics and Gynecology,
University of Utah Health Sciences Center,
Salt Lake City, Utah
The Physiology and Pathology of the Female Reproductive Axis;
Fertility Control: Current Approaches and Global Aspects

Lloyd P. Aiello

Associate Professor of Ophthalmology,
Harvard Medical School;
Assistant Director,
Beetham Eye Institute;
Investigator and Head,
Section of Eye Research,
Joslin Diabetes Center,
Boston, Massachusetts
Complications of Diabetes Mellitus

Andrew Arnold

Murray-Heilig Chair in Molecular Medicine
and Professor of Medicine and Genetics,
University of Connecticut School of Medicine;
Director, Center for Molecular Medicine,
and Chief, Division of Endocrinology and Metabolism,
University of Connecticut,
Farmington, Connecticut
Pathogenesis of Endocrine Tumors

Jennifer Berman

Assistant Professor,
Department of Urology,
David Geffen School of Medicine at University of California, Los Angeles;
Attending Surgeon,
UCLA Medical Center;
Co-Director, Female Sexual Medicine Center at UCLA,
Los Angeles, California
Sexual Dysfunction in Men and Women

IV

Laura Berman

Assistant Professor,
Department of Urology,
David Geffen School of Medicine at University of California, Los Angeles;
Co-Director, Female Sexual Medicine Center at UCLA,
Los Angeles, California
Sexual Dysfunction in Men and Women

Shalender Bhasin

Professor of Medicine,
University of California, Los Angeles,
School of Medicine;
Chief, Division of Endocrinology, Metabolism, and Molecular Medicine,
Charles Drew University and King-Drew Medical Center,
Los Angeles, California
Sexual Dysfunction in Men and Women

Andrew J. M. Boulton

Professor of Medicine,
University of Manchester;
Consultant Physician,
Manchester Royal Infirmary,
Manchester, United Kingdom
Complications of Diabetes Mellitus

Robin P. Boushey

General Surgery Resident,
Department of Surgery,
University of Toronto,
Toronto, Ontario, Canada
Gastrointestinal Hormones and Gut Endocrine Tumors

Glenn D. Braunstein

Professor of Medicine,
University of California, Los Angeles,
School of Medicine;
Chairman, Department of Medicine,
The James R. Klinenberg, MD, Chair in Medicine,
Cedars-Sinai Medical Center,
Los Angeles, California
Endocrine Changes in Pregnancy

F. Richard Bringhurst

Associate Professor of Medicine,
Harvard Medical School;
Physician,
Massachusetts General Hospital,
Boston, Massachusetts
Hormones and Disorders of Mineral Metabolism

v

Michael Brownlee

Anita and Jack Saltz Professor of Diabetes Research
and Professor of Medicine and Pathology,
Albert Einstein College of Medicine,
Bronx, New York
Complications of Diabetes Mellitus

Serdar E. Bulun

Associate Professor of Obstetrics-Gynecology and Molecular Genetics;
Director, Division of Reproductive Endocrinology and Infertility,
University of Illinois,
Chicago, Illinois
The Physiology and Pathology of the Female Reproductive Axis

Charles F. Burant

Associate Professor,
Department of Internal Medicine,
University of Michigan;
Attending Physician,
University of Michigan Hospitals,
Ann Arbor, Michigan
Type 2 Diabetes Mellitus

John B. Buse

Associate Professor of Medicine;
Chief, Division of General Medicine and Clinical Epidemiology;
Director, Diabetes Care Center,
University of North Carolina School of Medicine,
Chapel Hill, North Carolina
Type 2 Diabetes Mellitus;
Type 1 Diabetes Mellitus

David A. Bushinsky

Professor of Medicine and of Pharmacology and Physiology,
University of Rochester School of Medicine and Dentistry;
Chief, Nephrology Unit,
Strong Memorial Hospital,
Rochester, New York
Kidney Stones

Judy L. Cameron

Associate Professor,
Department of Psychiatry,
University of Pittsburgh,
Pittsburgh, Pennsylvania;
Associate Scientist,
Oregon National Primate Research Center,
Oregon Health and Science University,
Portland, Oregon
Neuroendocrinology

VI

Christin Carter-Su

Professor of Physiology;
Associate Director,
Michigan Diabetes Research and Training Center,
University of Michigan Medical School,
Ann Arbor, Michigan
Mechanism of Action of Hormones That Act at the Cell Surface

Roger D. Cone

Senior Scientist,
Vollum Institute;
Associate Professor,
Department of Cell and Developmental Biology,
Oregon Health and Science University,
Portland, Oregon
Neuroendocrinology

Felix A. Conte

Professor of Pediatrics,
Department of Pediatrics,
University of California, San Francisco,
School of Medicine,
San Francisco, California
Disorders of Sex Differentiation

Philip E. Cryer

Irene E. and Michael M. Karl Professor of Endocrinology and Metabolism in Medicine,
Washington University School of Medicine;
Chief of Endocrinology, Diabetes, and Metabolism,
Barnes-Jewish Hospital,
St. Louis, Missouri
Glucose Homeostasis and Hypoglycemia

Terry F. Davies

Professor of Medicine and Director,
Division of Endocrinology,
Diabetes and Bone Diseases,
Mount Sinai School of Medicine;
Attending Physician,
Mount Sinai Hospital,
New York, New York
*Thyroid Physiology and Diagnostic Evaluation of Patients with Thyroid Disorders;
Thyrotoxicosis;
Hypothyroidism and Thyroiditis*

Marie B. Demay

Associate Professor of Medicine,
Harvard Medical School;
Associate Physician,
Massachusetts General Hospital,
Boston, Massachusetts
Hormones and Disorders of Mineral Metabolism

Robert G. Dluhy

Professor of Medicine,
Harvard Medical School;
Clinical Chief,
Division of Endocrinology, Diabetes and Hypertension,
Brigham and Women's Hospital,
Boston, Massachusetts
Endocrine Hypertension

Daniel J. Drucker
